

# Bridge Inspector / Inspection Engineer

Indianapolis, Indiana

## Company Profile

**United Consulting** is a full service, civil engineering firm which was established in 1965. We have been named "Best Places to Work in Indiana" nine times by the Indiana Chamber of Commerce. This achievement conveys our staff likes where they work and the jobs they get to work on. We take pride in maintaining a desirable and rewarding workplace culture for our employees and excellent services to our clients.

Currently, we have an exciting opportunity in our Bridge Department to offer the right candidate who desires to play an integral role in transforming bridge projects into reality.

**United** offers a competitive salary; four and a half day work week; 401K with 6% company match; health and wellness incentive program; health, vision, and dental insurance benefits; and many additional company perks.

We promote a healthy work/life balance and encourage employee participation in numerous company functions such as golf events, holiday parties, summer picnics, and many fun activities.

## Minimum Experience, Education, Duties, Skills, and Requirements:

We currently have an opening for a Bridge Inspector / Inspection Engineer in **UNITED's** Bridge Department. The ideal candidate will embrace the challenge of completing Bridge Inspection Services in multiple Indiana Counties.

The successful candidate for this position will be responsible for completion and overall management of field and office work for county bridge inventories. Inspection duties will include client and INDOT coordination, performing field work, data import and review, report preparation. Applicants must have a minimum of five years of bridge inspection experience under the direction and supervision of a qualified Inspection Team Leader or have a bachelor's degree in Engineering from an ABET accredited university and two years of bridge inspection experience.

The successful candidate will be trained to succeed as a Bridge Inspector, be self-motivated, able to perform field work independently, and have a strong technical background with good written and verbal communication skills.

Special consideration will be given to applicants who have the following experience:

- Recent completion of the Safety of In-Service Bridges (FHWA-NHI-130055) course.

**Apply now to become a part of our innovative team!**

EOE M/F/D/V
