

Transportation Project Team Leader

Indianapolis, Indiana

Company Profile

United Consulting is a full service, civil engineering firm which was established in 1965. We take pride in maintaining a desirable and rewarding workplace culture for our employees and excellent services to our clients.

Currently, we have an exciting opportunity in our Transportation Department to offer the right candidate who desires to play an integral role in transforming transportation projects into reality.

United offers a competitive salary; four and a half day work week; 401K with 6% company match; health and wellness incentive program; health, vision, and dental insurance benefits; and many additional company perks.

We promote a healthy work/life balance and encourage employee participation in numerous company functions such as golf events, holiday parties, summer picnics, and many fun activities.

Minimum Experience, Education, Duties, Skills, and Requirements:

We currently have an opening for a civil engineer as a Road Project Team Leader in **UNITED'S** Road Department. The ideal candidate will embrace the progressive challenge to evolve into a well-rounded engineer, capable of designing multiple elements of transportation projects, inspire their design team to become better engineers and technicians, and deliver on a diverse group of transportation projects.

The successful candidate for this position will be responsible for leading a Road Design Team and managing projects from inception to completion including project proposals, provide quality control on the design deliverables, developing the skill sets of their team members, and meeting with clients. Applicants must have their Professional Engineers license in the state of Indiana or able to receive it by proxy.

The successful candidate will be trained to succeed in project management and will be self-motivated with a strong technical background and excellent written and verbal communication skills.

Road Project Team Leaders must have their PE with a minimum of 10 years of work experience.

See the following page for a full job description.

Apply now to become a part of our innovative team!

EOE M/F/D/V
